Marine Single Grade SAE 30

Product price:

£10.39 tax included

Product description:

Single-grade mineral motor oil for gasoline and diesel engines with a naturally high viscosity index. It provides for a stable lubricating film even under extreme operating conditions. Its high alkaline reserve prevents corrosion even when diesel fuel with a high sulfur content is used. Lightly doped for use in classic engines as well. Prevents sludge formation and offers reliable protection against wear.

For universal use in gasoline and diesel engines and in transmissions for which the manufacturer specifies an SAE 30 mineral oil. Particularly suitable for older engines. Tested for compatibility with turbochargers.

Application

The specifications and instructions from the assembly or vehicle manufacturer must be followed!

Product short description:

Single-grade mineral motor oil for gasoline and diesel engines with a naturally high viscosity index. It provides for a stable lubricating film even under extreme operating conditions. Its high alkaline reserve prevents corrosion even when diesel fuel with a high sulfur content is used.

Lightly doped for use in classic engines as well.

- can be used in gasoline and diesel engines with and without turbocharger
- high lubrication reliability
- high wear resistance
- optimum stability to aging
- universal application
