NGK BR6FS

Product price:

£4.60 tax included

Product description:

14mm, .460" reach, 5/8" hex, tapered seat, resistor NGK traditional plugs are constructed for longer life and optimum performance. Corrugated ribs prevent flashover. NGK uses only the purest alumina silicate in its ceramic insulator which give all NGK plugs greater strength and better heat transfer. Copper cored and triple sealed to further aid in heat removal and prevent interior leakage.
