Aspen 2 Alkylate Fuel 1L - Counter Collection Only

Product price:

£6.30 tax included

Product description:

Aspen 2 is alkylate petrol premixed at 50:1 with a premium quality biodegradable 2-stroke oil.

Aspen 2 is virtually free from harmful substances such as benzene, aromatic hydrocarbons or olefins - substances that can cause serious health problems.

Aspen Alkylate Petrol also keeps the spark plugs and combustion chamber of your engine cleaner.

Aspen Alkylate Petrol contains no ethanol, meaning it can be stored for a long time without any deterioration in quality, which makes your engine easy to start even after long standstill periods.

The oil in Aspen 2 has been selected and developed for the future. It is fully synthetic with as much as 60% renewable content. It is biodegradable and free from ash and solvents. The oil gives an extremely clean engine and has optimum lubrication characteristics at all engine temperatures.
