Marine Fuel System Cleaner LM25011

Product price:

£12.79 tax included

Product description:

Highly effective combination of cleaning and preserving additives for 2-stroke and 4-stroke petrol engines. Removes deposits on injection valves, intake valves, spark plugs and in the combustion chamber and prevents new deposits from forming.

For a smoother running engine Eliminates starting problems and rough engine running. Saves fuel and reduces pollutant emissions. For all types of gasoline injection systems and carburettors.

For adding to fuel tanks to deal with and prevent problems. 500 ml is sufficient for 250 l of fuel. Filling the dosage chamber (25 ml) once is sufficient for 12.5 l of fuel.

Application

500 ml is sufficient for 250 l of fuel. Filling the dosage chamber (25 ml) once is sufficient for 12.5 l of fuel.
