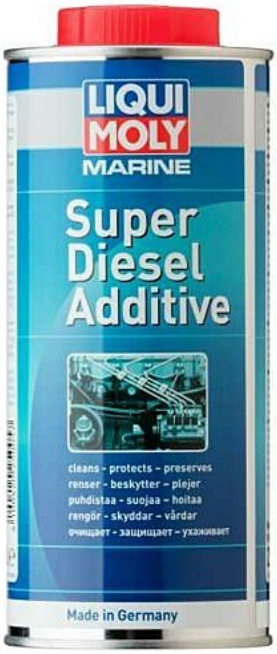
Liqui Moly Marine Super Diesel Additive



Product price:

£23.99 tax included

Product description:

A combination of agents which cleans, protects and boosts the cetane number. The enhanced ignition performance improves the combustion of the fuel. Corrosion protection additives protect the entire fuel system reliably against the formation of rust and corrosion. Due to its outstanding cleaning properties, the components remain clean and deposits are prevented from forming.

For all diesel engines in the marine sector, including pumped-jet and common rail injection systems. Fully compatible with all conventional diesel and biodiesel fuels. 500 ml is sufficient for 250 l of fuel. Filling the dosage chamber (25 ml) once is sufficient for 12.5 l of fuel.

Application

500 ml is sufficient for 250 l of fuel. Filling the dosage chamber (25 ml) once is sufficient for 12.5 l of fuel.

Product codes:

Reference: LM25005

Product short description:

A combination of agents which cleans, protects and boosts the cetane number. The enhanced ignition performance improves the combustion of the fuel. Corrosion protection additives protect

the entire fuel system reliably against the formation of rust and corrosion.

- boosts the cetane number
- increases the lubricating effect
- guarantees low fuel consumption
- keeps the fuel system clean
- high wear resistance
