Marine 4T Motor Oil 10W-30

Product price:

£12.79 tax included

Product description:

Liqui Moly Marine 4T Motor Oil 10W-30 – Premium Protection for Marine Engines

Keep your marine engine running smooth and strong with **Liqui Moly Marine 4T Motor Oil 10W-30** – a high-performance, fully synthetic oil engineered for the demanding conditions of marine use. Designed specifically for 4-stroke outboard and inboard engines, this oil delivers reliable protection against wear, corrosion, and sludge formation, ensuring optimal performance even in saltwater environments.

? Key Features:

- **Optimal Lubrication:** Superior flow properties provide consistent lubrication across a wide temperature range.
- **Anti-Corrosion Formula:** Guards critical engine components from moisture and salt-induced corrosion.
- **Reduced Oil Consumption:** Minimizes deposit build-up while maximizing engine cleanliness and longevity.
- **Fuel Efficiency Boost:** Reduces friction to help improve fuel economy and engine responsiveness.

? Ideal For:

- High-performance 4-stroke marine engines
- Personal watercraft, fishing boats, and small yachts
- Freshwater and saltwater conditions

Give your boat the engine care it deserves with Liqui Moly’s trusted German engineering. Smooth sailing starts with superior protection.

High-performance low-friction motor oil based on synthetic technology. Provides increased corrosion and wear protection as well as quick oil penetration of the engine and turbocharger with additives specially adapted to maritime use. Exceeds leading engine manufacturers' requirements. Fulfills warranty cover provided by manufacturers who require NMMA FC-W Catalyst Compatible® approval.

For all petrol-driven inboard and outboard engines.

Application

The specifications and instructions from the assembly or boat manufacturer must be followed. Optimum effectiveness is only possible when the product is used unmixed.

Product short description:

Liqui Moly Marine 4T Motor Oil 10W-30 – Premium Protection for Marine Engines LM25022

Keep your marine engine running smooth and strong with **Liqui Moly Marine 4T Motor Oil 10W-30** – a high-performance, fully synthetic oil engineered for the demanding conditions of marine use. Designed specifically for 4-stroke outboard and inboard engines, this oil delivers reliable protection against wear, corrosion, and sludge formation, ensuring optimal performance even in saltwater environments.

Key Features:

- excellent wear resistance
- excellent cold-start behavior
- outstanding corrosion protection
- optimum stability to aging
