Cobra MR HH150 Handheld VHF

Product price:

£79.99 tax included

Product description:

Built-in GPS ensures accurate location when calling for Coast Guard assistance in a time of need. Rewind-Say-Again™ allows you to record and replay the last 20 seconds of a VHF call. Dual All-Terrain Radio™ is designed for land and water use.

FEATURES

- **Floating** - Floating design and orange core make retrieving radio easy if dropped overboard.
- **Submersible** - Rated submersible to industry-standard JIS7 (IPX7) Specifications. One meter for 30 minutes.
- **3 Watt VHF** - Low/Med/High Output power for short and long-range communication
- **USA, Canada & International Channels** - Allows operation on any of the three different channel maps established for these areas. Includes the latest 4 digit channels.
- **Weather Alert**- Alerts with an audible tone and visual alarm if threatening weather is nearby
