SAS Secure Anchor – Bolt Down

Product price:

£50.99 tax included

Product description:

The SAS Secure Bolt Down Anchor offers a strong and simple way to secure your equipment with chains, cables, and padlocks. You can bolt the secure anchor to walls or concrete drives for a reliable anchor point. This anchor uses two layers of thick steel to create a tough locking base. It fits SAS chains up to 10mm shackle thickness, and the solid design provides excellent resistance to cutting and prying. When paired with an SAS chain, it forms a highly secure locking system that protects your valuables effectively.

- Double wall thickness for tough applications
- Fits concrete floors, driveways, or brick walls
- Easy installation with clear instructions
- Supplied with fixing kit: expansion bolts, steel plugs, and ball bearings
- Strength depends on the fixing surface material
- Designed for use with SAS 10mm D

shackle chains

- Internal clearance measures 45 x 45mm

Ultimately, the SAS Secure Bolt Down Anchor delivers heavy-duty, flexible security wherever you need it. It suits trailers, caravans, and quad bikes, helping protect your gear from theft with minimal fuss.
