SAS UB50 Padlock, 50mm Brass Body, pack of 2

Product price:

£26.99 tax included

Product description:

The UB50 50mm Brass Padlock, Pack of 2 offers durable, everyday security that works across a wide range of settings. Since each lock has a strong brass body and secure mechanism, it performs well in both indoor and outdoor conditions.

This general-purpose UB50 padlock includes a solid brass body that resists corrosion. The heat-treated hardened steel shackle increases resistance to cutting and forced entry. Because of this, the Brass Padlock remains tough enough for sheds, gates, lockers and storage boxes.

Additionally, the 50mm brass padlock features a double locking mechanism, which improves protection against tampering. The internal build also includes a high-precision brass cylinder core with five brass key-way pins. These parts, combined with stainless steel springs, deliver smooth operation and lasting durability of the

UB50 Brass Padlock.
