Product short description:

Coast's XP-R range introduces specifications that would have been unheard of just a couple of years ago, certainly at these prices. All feature incredibly bright, white beams that can be focused from spot to flood with a fingertip. However, the stand-out benefit is the clever dual power system that lets you swap the inbuilt rechargeable battery for standard batteries if you can't get to a charging point (everything you need is included).

The XP9R offers up to 1000 lumens with 3 power levels for brightness/battery life.
