Quick Release Brass Greaser Lubricator 1/8"BSP

Product price:

£87.99 tax included

Product description:

This Maestrini quick release greaser comes with a universal base mounting plate allowing it to be installed in a vertical or horizontal orientation. These greasers can be remotely mounted and connected to pipework for easy lubrication of propeller shaft stern tubes or bearings. The quick release top nut enables the piston to be released and the grease chamber easily refilled.
