Product short description:

The 92-802859Q1 2-4-C Lubricant with Teflon (227g) is the ultimate marine lubricant for boat owners who demand superior protection and performance in harsh marine environments. Formulated with high-quality Teflon, this versatile lubricant excels in reducing friction and wear, ensuring your boat's moving parts operate smoothly and efficiently. Whether you're dealing with engine parts, cables, or other components, this lubricant acts as a durable shield against corrosion and oxidation, extending the lifespan of your equipment.

- Protects against corrosion and rust
- Contains Teflon for enhanced performance
- Reduces friction and wear
- Suitable for various marine components
- Long-lasting protection in harsh environments
- Easy to apply with precise nozzle
